AN UPGRADED SPECIFICATION BUT NO PRICE INCREASE FOR DACIA LODGY, DOKKER AND DOKKER VAN

- **Cruise control with speed limiter, outside temperature display, the Eco Mode function and a gearshift indicator are now available for Dacia Lodgy, Dacia Dokker and Dacia Dokker Van.**
- **This equipment is available with no increase in price.**
- **Dacia Lodgy can now be specified with the dCi 110 diesel engine from the second equipment level (Silver Line) upwards.**
- **Order books are already open across Dacia's French network.**

Changes have been made to the Dacia Lodgy, Dacia Dokker and Dacia Dokker range which have benefited from a specification upgrade with no increase in price.

Enhanced comfort at no extra cost

Depending on equipment level, these three Dacia models now come with cruise control with speed limiter which is simple to adjust using the steering wheel-mounted controls.

The feature is standard for Black Line versions of Lodgy and is available as an option for Dokker, Dokker Van and Lodgy (Ambiance and Silver Line equipment levels) at a tax-paid price of €150.

The outside temperature display is a standard fitment for Lodgy's Black Line equipment level and Lauréate versions of Dokker.

Two new features to optimise fuel consumption

Eco Mode is now a standard feature of all the engines available for Lodgy, Dokker and Dokker Van. It helps to reduce fuel consumption by up to 10 per cent, depending upon the type of road and driving style.

The **gearshift Indicator** also contributes to saving fuel by informing drivers when they should shift gear thanks to a light on the dashboard.

A new engine for Silver Line versions of Lodgy

The dCi 110 powerplant rounds off the range for Silver Line versions of Lodgy. The tax-paid price is €14,900 and €15,400 for the five- and seven-seat versions respectively.

The new-spec versions of Dacia Lodgy, Dokker and Dokker Van are already on sale across the Dacia network in France.
