LPG VERSIONS OF ALL DACIA MODELS NOW AVAILABLE IN FRANCE

- **LPG can now be specified as an original equipment fitment for any Dacia model in France**
- **An affordable, relevant alternative for today's fast-moving market**
- **Order books open across France on July 4, 2017**

Dacia is pleased to announce the availability of LPG versions of every one of the six models it markets in France, namely Logan, Sandero, Logan MCV, Duster, Lodgy and Dokker. This simple, proven and affordable solution is ideal for Dacia customers as harsher taxation policies and restrictions concerning the types of vehicle that may be driven in the country's major cities make LPG-fuelled vehicles an attractive alternative.

LPG versions of the following engine / model combinations are available:

- TCe 90 petrol engine / Sandero, Logan and Logan MCV,
- SCe 100 petrol engine / Lodgy and Dokker,
- SCe 115 petrol engine / Duster.

This proven, reliable technology is now available as an original equipment fitment, with prices starting from €700.

This investment can be recouped thanks to:

- LPG's lower pump price,
- The vehicle's registration document is either free or half its usual price in practically all of France's administrative regions,
- Company car tax not payable for two years in the case of the TCe 90 LPG engine.

Order books open on July 4, 2017.

Tax-paid prices in France:

Model	Version	Price €
Logan TCe 90 LPG	Ambiance	10 900
	Lauréate	12 000
