10 janvier 2014

# LPG VERSIONS OF DACIA LODGY AND DACIA DOKKER NOW AVAILABLE IN FRANCE

- **Dacia's bi-fuel 1.6 MPI 85 LPG engine (petrol/LPG) can now be specified for Dacia Lodgy and Dacia Dokker in France.**
- **It replaces the 1.6 MPI 85 engine in the catalogue of these models with no increase in price.**
- **With Sandero, Duster, and now Lodgy and Dokker all available with this powerplant, Dacia proposes the market's most comprehensive line-up of models designed to run on LPG.**
- **Like all the brand's models, Dacia vehicles with LPG engines come with a three-year or 100,000km warranty.**

The New Year saw Dacia extend its range of LPG-powered vehicles. **With no increase in price**, both Lodgy and Dokker can now be ordered with the bi-fuel 1.6 MPI 85 LPG engine (petrol/LPG) which stands in for the 1.6 MPI 85 petrol engine in their respective catalogues.

With the introduction of this new engine, fuel consumption and CO2 emissions have come down to:

- Lodgy: 6.7 litres/100km (petrol)\* / 8.6 litres/100km (LPG)\*  
155g of CO2/km (petrol)\* / **139g of CO2/km (LPG)\***
- Dokker: 7.2 litres/100km (petrol)\* / 9.0 litres/100km (LPG)\*  
165g of CO2/km (petrol)\* / **144g of CO2/km (LPG)\***

Tax-paid prices in France for the five-seat version of Dacia Lodgy 1.6 MPI 85 LPG start from €9,990 (Lodgy equipment level), while those for the seven-seat version start from €11,900 (Silver Line equipment level).

Tax-paid prices in France for Dacia Dokker 1.6 MPI 85 LPG start from €9,490.

The use of LPG – the cheapest fuel on the market – results in particularly competitive running costs, with a 'full tank' costing less than €30\*\*, while using both tanks (petrol and LPG) extends total range to more than 1,000km.

All LPG versions of Dacia models are factory-built to ensure maximum quality, reliability and safety.

Order books are already open for these versions across Dacia's French sales network.

*\* Homologated fuel consumption and emissions data.*

*\*\* Source: DIREM. Based on an average price for LPG across the country of €0.87/litre (in 2013) and an LPG tank capacity of 34 litres.*
