Renault and Dacia eco² vehicles

On May 2007, Renault launched a range of environmental and economical vehicles, which have CO2 emissions under 140 g/km or run on biofuel. Two years after the creation of Renault eco², Dacia eco² meets the same standards as Renault eco² vehicles. These vehicles are manufactured at ISO 14001 certified plants. On the one hand, Twingo, Clio, Mégane, Modus and Kangoo are certified Renault eco² and on the other hand, Sandero, Logan et Logan MCV are certified Dacia eco².
